

Shelby American Automobile Club Colorado Region SAAC/COLO

Open Track Road Course Event High Plains Raceway, Byers, CO Sunday June, 26, 2016

Many of you have enjoyed participating in open track events sponsored by the Colorado Exotic Car Association (CECA) over the past thirty-five years at various road course tracks around Colorado. Our 36th season started with a most enjoyable session at the Pueblo Motorsports Park track in April, and our second event is scheduled for Sunday, June 26, 2016. SAAC/COLO, the executive Associate of CECA, will continue to stage the events with the same format and program that has proven successful throughout those years. Please join us for the second of our four events this season. Our club-owned and highly improved High Plains Raceway offers a 2.55 mile, closed circuit race course track with 15 turns and notable elevation changes. It also has most of the comforts of home: running water, showers, bathroom facilities, racing fuel, and paid corner workers to eliminate the need for volunteers and consequent lost track time. Due to increased track rental costs, corner worker charges and event insurance, we have increased the entry fee to \$210 per car, with no additional charge for extra drivers. Bring your friends – particularly those with performance cars who might enjoy the event. We need your support to make this event work! Come out and have some safe and fast fun on the best race track in Colorado.

General Information: Pre-registration for this event is required. Participation will be limited to **50 cars**. Notice of acceptance of registration will be e-mailed to registrants prior to the event, but will be subject to final approval upon inspection of the participating vehicle at the track. The entry deadline is June 23rd, 2016. Make your check for **\$210.00** payable to SAAC/CECA and send to Stephen Wilson, 6434 S. Helena St, CO 80016. Send entry form to: registrar@cecaevents.org.

Note: No refunds will be made unless we are notified of your change in plans at least 48 hours prior to the event.

Additional information: For those of you who may be concerned about exposure of possible damage to your collector or exotic (high value) cars through participating in a “high performance driving event”, normally excluded from your typical insurance coverage, HPDE insurance is available to individual track participants through LOCKTON AFFINITY, LLC. For more information, contact Locktonmotorsports.com or contact Fredric A. Knuth, Lockton Affinity, at 913-652-7529, or fknuth@locktonaffinity.com.

Erratic or reckless driving is strictly prohibited, and may result in expulsion from the event. All vehicles permitted access to the track must be in good and safe condition. **NO ALCOHOLIC BEVERAGES ARE ALLOWED.** Glass beverage containers are prohibited.
- 2. REGISTRATION:** Pre-registration is required, to permit the event committee sufficient time to plan the event schedule and resources. Timely confirmation will be sent U.S. mail or e-mailed to accepted registrants.

This technical inspection is to be performed by the owner, the driver, or a qualified mechanic prior to arrival at the track. It is the responsibility of the owner of the vehicle to verify that all operating, safety and equipment requirements indicated on the inspection form have been satisfied. The vehicle will be subjected to an additional inspection by a designated technical inspector at the event for full compliance prior to being granted access to the track. Motorcycles, trucks, vans, SUV's and similar high-profile vehicles are not acceptable for participation in SAAC events.

A novice driver (as determined by the Event Steward) will be required to post a prominent "X" marker on the rear of his vehicle for identification by other drivers. Such "X" designation is not to be interpreted as indicating a driver to be taken advantage of.
- 5. SAFETY EQUIPMENT & CLOTHING:** Each driver must have, and use while operating a vehicle on the track, a helmet of sufficient quality and condition to meet approval of the Event Steward. Current Snell-rated helmets are strongly recommended. **REQUIRED:** Long sleeved shirt and long pants of cotton or wool or a fire retardant driver's suit, and leather closed toe fire resistant driver's shoes. **NO SHORT PANTS!** If you have a nomex or other approved driving suit, please use it. - 7. EVENT CONTROL:** The Event Steward is in full and total control of the event and, most particularly, all activities on the track. Corner workers will be performing duties at the direction of the Event Steward. All communications and directions issued by the Event Steward, the corner workers, and other designated event officials, whether verbally or by hand or flag signals, will be followed and obeyed without question. Should drivers have questions regarding any such communications, directions, or track procedures in general, they may direct their questions to the Event Steward in the paddock area following full compliance therewith.
- 8. PASSING:** Passing will be permitted only in specified areas on the track, to be determined by the Event Steward and announced at the drivers meeting. Passing will not be permitted in the corners. Drivers will be expected to check their mirrors frequently for cars approaching from behind, and to wave faster cars past when appropriate, indicating the side for passing by pointing. Drivers failing to exercise passing courtesy or blocking other cars from passing will be removed from the track. Primary responsibility for a safe pass rests with the passing driver. The vehicle being overtaken is to remain on the driving line.

9. PURPOSE: Our Open Track events are conducted as educational events to provide the opportunity to learn and gain experience in performance driving under safe, controlled conditions, and to have a good time while improving ability. It is the responsibility and obligation of every participant to assure that we do this safely and with full respect for the rights and well-being of each other.

12. STOPPING: If you must stop on the course, do so in a manner which will not cause danger or obstruction. A driver stopped on or near the track should not leave his car without the assistance of a worker unless the car is on fire or is in danger of a collision. If you have been involved in an accident, driving will be suspended and a worker will assist.

13. DRIVER HAND SIGNALS: A driver should signal his entry into the pits by raising one arm. The driver of a stalled car should raise both arms to indicate he will not move until the course is clear.

15. TRACK SESSIONS:

Familiarization/School Laps: A group of 4 to 5 student drivers will follow a pace car, driven by an instructor. At the end of each lap, the vehicle directly behind the pace car will pull to the right allowing the trailing cars to pass, and will assume the last position in line. A hand signal is used to wave the cars by. Each car moves up a position after each lap is completed. These are intended as familiarization laps, and passengers may be carried.
